A good map has:
A Title
A Key
Symbols
Compass Points

Cartographer

Curriculum Intent Links: 2b

Environmental Awareness

Text: On the
way home

Extended Writing: To write
labels and captions for an aerial
map

Think like a geographer by:

To be able to follow a map

To understand the features on a map

To design a map to show how to get to an end point.

National Curriculum Coverage:

- use simple compass directions (north, south, east and west) and locational and directional language [for example, near and far, left and right], to describe the location of features and routes on a map
- use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key
- use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment

Key Content:

- Aerial views are a view from above.
- Maps are a representation of an area of land or sea that can be used for navigation. Maps can show physical and or human features including cities, roads, buildings etc.
- The art of map making is called cartography. People who make maps are called cartographers. The word cartography comes from the Latin word 'carta' meaning map.
- The earliest known maps are actually of the stars and were found in cave
- The Age of Exploration is a time from the 15th to the 17th century

Vocabulary:

Aerial View

Map

Location

Compass

Key

Navigate

Lesson Sequence:
